Student Makes \$10,400 On UN Stamp Misprint

NEW YORK (AP) - A college student has assured the financing of his education by selling 50 misprinted United Nations postage stamps for \$10,400.

The unidentified Bronx youth purchased 50 of the misprints for \$2 on the first day of their issue, Feb. 28, 1962. Several weeks ago, he sold them to wholesale stamp dealer Julius Stolow of J. & H. Stolow, Inc., for \$208 each.

Stolow said Sunday the young man "knew right away what he had" when he returned home from the U.N. with the stamps.

The misprinted stamps commemorate the U.N.'s housing and community facilities. But they are minus the black-imprinted words "Housing and Community facilities," which should be cornered on the left side, then continued halfway across the top.

Also missing from the sevencolor misprints are several areas of black shading on houses that make up most of the stamp's design.

H. Alexander Fraenkel, who publishes a journal for stamp dealers and collectors, said: The misprint is the greatest

error since the Dag Hammarskjold (stamp) case. "It's even greater for stamp

collectors and dealers, because this error cannot be corrected by the U.S. Post Office Depart-"The stamps were printed by

Sager Nominated For Re-Election By Farm Bureau Walter W. Wightman, presi-

dent of the Michigan Farm Bureau for the past five years, has been re-elected as a "director at large." The board was to meet in

Lansing today to name a president, vice president and a third member of the executive committee and organize. Delegates voted three chang-

es in board positions. In an election where directors from odd-numbered districts were involved along with board representatives from the Farm Bureau Women's and Young People's Committees.

Donald Ruhlig of Dexter, replaced Allen Rush, Lake Orion, as District 3 director. Mrs. William Scramlin, Holly, was elected women's representative, replacing Mrs. Arthur Muir, Grant. Donald Williams, Webberville was elected young people's board representative, replacing James Sparks, Cassopolis.

Five incumbents were renominated at district delegate caucuses for another two-year term on the board. They included Edmund Sager, Stephenson, District 11. All nominees were approved by the 700-member voting delegate body.

The delegates debated 130 policy resolutions that began with another boost for tax reform, and concluded with endorsement of the work of the National Livestock and Meat Board.

Booms Return

Nylon Anniversary

This is the 25th anniversary of the introduction of

Before 1938 fine women's hosiery was made of silk. It was expensive and not very durable. Recently introduced rayon was economical, but limited as to a strength and durability.

It didn't matter so much what women's stockings were made of before skirts began to rise, but by 1938 some 700 million pairs of hose were sold and the female leg was permanently out in the open, although the sheerest of one-thread silks weren't expected to endure a whole evening's gaiety.

No woman who lived through it will forget the excitement of the introduction of nylon stockings. They were nearly double the price of silk but in the first year they were out women bought over 64 million pairs and Du Pont found that its problem wasn't in promoting sale of nylon, but in apportioning the supply fairly among users until it could enlarge its production.

There's a lesson in American research and development in nylon. It took a going concern to develop it. DuPont brought 15 years of experience in the manufacture and sale of rayon and acetate to the development of nylon, and even though the final process that produced it was almost completely different from the rayon process, the experience gained in rayon making was valuable. By the time the first pound of nylon had been consumed, over \$27 million had been spent on its development, counting the investment in research and production facilities.

Whites Revolt

Observers looking closely at such big northern cities as Chicago, Detroit and Philadelphia have now established beyond question the fact of the "white revolt" against the heavy Negro pressures exerted in been represented as docile, un- mum.

sums up the way many whites in these cities view the with no interest in politics or partment's recent appointment LANSING (AP) - Michigan's Negroes' efforts-and the response by white leaders government. from President Kennedy down to the local level.

Mutterings are heard constantly in bars, restaurants and other public places. Poll takers knocking on ly conscious for centuries. Ac- book on Buddhism who has said. This is 10 per cent below the doors in white neighborhoods to check political and tually, all that is new about a had duty in many of the last year's harvest. Both yield other sentiment find the conversation almost inevit- supposed Buddhist political Buddhist countries. His fasci- per acre and total acres planted ably drifting to racial matters.

Survey samples, as always, are small. But if the scientific techniques used mean anything at all, they measure a big hostile response among white Americans. What is not clear at this point is how deep and

fingering the revolt may be.

Some white and Negro leaders in these communi- visers of kings and ministers. ties believe it in the nature of a "shock response" and will tend to wear off-unless 1964 sees Negro drives and demonstrations comparable in number and intensity to those witnessed this year.

Others, particularly white political leaders, see it direct and daily contact. Havanother way. They think the causes of the rebellion ing this contact, they were may endure, and perhaps even grow stronger.

This is based on the now widely established fact whether their rule had poputhat much of the anti-Negro stir is greatest among lar support and when the those lower income whites who most fear competition for jobs and housing which rising Negro demands may

The expectation is that these demands will not is a western idea, was never slacken, though they may be pressed in different ways practiced by the Buddhists. from year to year.

Today there are some 20 million Negroes in this country, roughly one in every 10 persons. By 1975 the total U.S. population may be 230 to 240 million. If the ratio holds, we then will have 24 to 25 million Negroes. wind out of department store Thus one cannot easily imagine that their pres- sales. sures will lessen in any important way in the years

opportunities for schooling. It is not altogether plain what the northern "whites the football pools. in revolt" would have their leaders do about this rising,

The rebellion could conceivably penalize politically many of those leaders judged to have given too much

ground to the Negroes. If any substantial number of such leaders should be swept from office, then those in revolt could address their protests to new ears.

The big question thereafter would be what now policies could be devised which would please the millions of fretful whites and still cope with the hard fact of

mounting Negro millions. To manage that might prove the best trick of the the "Keep Off the Grass"

THE MEAT EATERS

LOTS OF HAMBURGERS-World meat consumption is high and going higher every year. World meat production (excluding Communist China) rose 30 per cent between 1953 and 1962 while population increased 19 per cent, says the U.S. Department of Agriculture. In the latter year, 109 billion pounds of meat were consumed. Chart above lists the 15 leading meat-eating countries by per capita consumption. All are well above the average of 39 reporting countries, which is slightly over 96 pounds a year.

8,000 - BILLIONS FOR RESEARCH 6,000 MILLIONS OF DOLLARS DEFENSE SPACE 2,000 ALL OTHER FEDERAL NEA

RESEARCH TRAILS—Billions of federal dollars are being spent on scientific research every year. Although defense is still largest in terms of actual dollars, space research has expanded explosively since 1957—increasing at an annual rate of 85 per cent. Medical research continues to grow about 25 per cent annually. Since 1947, total federal expenditures on research of all kinds have increased by 21 per cent each year. Data from National Science Foundation and National Institutes of Health.

Auto Accidents Take 10 Lives, Mostly Youths

Traffic accidents in Michigan during the weekend took their heaviest toll of victims from among young persons. Seven of the 10 who were killed, State Police said, were in their 20's or teens.

The death count was made by the Associated Press during the period from 6 p.m. Friday until midnight Sunday.

NOT FOR THE CLUB

LOUISVILLE (A)-Returning home from Cumberland Falls. Mrs. John D. Stengel noticed a spectacular display of big red flowers, like poppies, in a farmer's yard.

Mrs. Stengel, president of a local garden club, decided to find out what they were. Her call had to go through Lexington but there was a delay in completing the connection.

While waiting she mentioned the nature of the call to the operator who volunteered this

information: "Forget it. The flowers are artificial."

Some of the open mines on the peninsula are 500 feet long, from which pure copper was extracted by the primitive fire-andwater and stone-hammer meth-

Rare Knife Found

Mrs. Greenough also found, in addition to the copper implements, several stone skinning implements, hatchets and a big stone maul that could have been used for pounding copper.

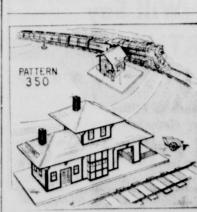

Two copper knives later were found in the Sault area: both may have been products of the same ancient coppersmith. One found on a farm seven miles south of here was described by Wyman as "one of the rarest ever unearthed." The second knife, about six inches long, was found on nearby Sugar Island about 12

In Memoriam

Borman

In loving memory of Elain Borman who passed away year ago today, Nov. 18, 1962. She little thought when leaving

home, She would return no more. That she in death so soon would We do not know what pain she bore We did not see her die. We only know she passed away, And could not say goodbye.

We do not need a special day,
To bring her to our minds.
The days we do not think of her
Are very hard to find.

For no one else should ever be Sadly missed by Mother, Father, Sisters and

Brother-in-laws.

Tigers Trade

sas City Athletics announced today a five - player trade wiht The Detroit Tigers, sending Tiger slugger Rocky Colavito to

General Manager Pat Friday said the A's gave up Jerry Lumpe, one of the American League's top second basemen; and right handed pitchers Ed Rakow and Dave Wickersham for Colavito, right-handed pitcher Bob Anderson and an announced sum of money.

During the last six seasons, Colavito has hit 222 home runs, which is more than any other slugger in the American League during the same period. Colavito, who is expected to help meet Kansas City's desperate need for righthanded power hitting, smashed 22 home runs last season and had a batting average Friday said "we are paying a

heavy price to acquire the power hitting we need but we feel we have got to take a calculated risk to jack up our offense and we are gambling our young pitching will fill the holes left by Rakow and Wickersham."

Anderson has been in the big leagues seven years, spending six years with Chicago and one with Detroit. The 28 - year - old pitcher has a lifetime won-lost record of 36-46 and earned run average of 4.26. He won 3 and lost 1 with Detroit last season.

Hammar Day Program Set

The program for the Charlie Hammar Day program to be held at the commons of the new Escanaba Area High School the evening of Monday, Nov. 25 has been arranged, it was announced today by Clarence E. Moore, general chairman.

Tickets for the dinner are available in several stores in Escanaba and Gladstone and are also being sold by members of the committee.

"We are assured of a good response and the concern is now that those who wish to come will have their tickets before the deadline this Wednesday," said Moore. "To meet the requirements of the caterer, all persons selling tickets must make a report not later than Thursday noon by calling me at ST 6-7114."

The dinner on Monday, Nov. 25, will honor an Escanaban who through his work with several organizations has aided others to better health, particularly treatment for crippled children at Shrine Hospitals.

Dr. Vernon K. Johnson will be toastmaster and recognition will include a proclamation by Mayor Harold Vanlerberghe: honorary membership in the Escanaba Rotary Club; appreciation from representatives of citizens of the community; songs by Orpheus Chorus and group singing directed by Mrs. M. H. Garrard.

Baby Ridiculed By Rockefellers

WASHINGTON (AP) - Gov. ports they are expecting a ba-

Columnist Betty Beale wrote in the Washington Sunday Star that there are rumors in Republican circles that Mrs. Rockefeller, whom the governor married earlier this year after both were divorced, was expecting. When the Rockefellers ar-

rived here Sunday night for a two-day social and political visit. Rockefeller, a candidate for the GOP presidential nomination, was asked about the col-

"These rumors have been fly-Pvt. John F. Collins, son of turns out about 3,200,000 pairs ing ever since we have been married," Rockefeller comment-

> The governor has four living by her first marriage.

Press Counter...

Connected to our presses, this device counts the number of copies we print each issue.

That's all it does.

It doesn't tell us—or our advertisers,

how many copies were sold, spoiled, or never delivered; how much the reader paid or where he lives; or the answers to a host of other questions.

Our A. B. C. report* does, though.

This report is a factual inventory of our circulation audience, based on an audit of our records, and measured according to A. B. C. standards and terms.

It is important to merchants, who buy advertising time or space as a means of circulating product or service messages, to know what they are buying.

Gross press run figures, like probable audience figures, are important. But not for describing circulation coverage.

Ask to see a copy of our latest A. B. C. report.

ESCANABA DAILY PRESS

The Audit Bureau of Circulations is a non-profit circulation auditing association whose representatives regularly visit member publishers' offices and whose reports provide facts on each publication's circulation. Copies of our latest A.B.C. report are available to interested persons
